

CCH EQUIPMENT CO.

14902 Preston Rd. Ste. 404-323 Dallas TX.75254
Yard 1501 FM 66 Waxahachie TX 75167
Ph:(972) 937-3597 fax (972) 923-2564

January 1, 2016

An economical quality choice serving the industrial gases business for over 35 years offering quality engineering, design, fabrication & reconditioning.

CCH Equipment specializes in reconditioned equipment to service the Industrial gas industry. Most of the equipment we sell is fully reconditioned and carries a 90-day to 1-year warranty.

CCH has several thousand items in stock to meet our customer's critical deadlines.

*By having the parts in stock we are able to shorten the critical delivery time.

The majority of our equipment is reconditioned outside of the Waxahachie facility. In some cases we will bring in skilled contract labor to fabricate equipment to our design.

Facility overview

1501 FM 66, Waxahachie Texas

This 6 acre facility includes 12,528 sq ft building built in 1986.

Waxahachie Facility overview

CCH main yard is located in Waxahachie Texas, just 25 miles south of Dallas. We primarily work with used equipment dealers as well as the industrial gas companies in retrofitting existing equipment.

*CCH acts as a wholesaler and sells their equipment in most cases to major rebuilders.

*The Waxahachie facility acts as a depot to allow us to kit the items needed by the rebuilder. This allows CCH to maintain quality control of parts needed to rebuild the equipment.

Professional Experience Summary
